Azmera Abebe Teshale

DATABASE ADMINISTRATION | DATA & AI PROJECTS

Addis Ababa, Ethiopia | azmeraabebe26@gmail.com | github.com/azmeraa

Professional Summary

Database administration professional with 10+ years of experience supporting enterprise IT and database environments across banking and public-sector organizations. Experienced with Oracle Database 12c/19c, SQL Server, PostgreSQL, SQL and PL/SQL, database performance, backup and recovery, access controls, data integrity, and production support. Builds practical data and AI projects using Python, analytics libraries, machine-learning fundamentals, LLMs/Ollama, FastAPI, and Docker.

Core Technical Skills

Database platforms: Oracle Database 12c/19c, Microsoft SQL Server, PostgreSQL

Database operations: Performance monitoring and tuning, RMAN backup and recovery, database security, access controls, data integrity, production support

Languages & scripting: SQL, PL/SQL, Python, shell scripting

Data analytics: Pandas, NumPy, Matplotlib, Seaborn, exploratory data analysis, data cleaning and visualization

AI & application development: Machine-learning fundamentals, Scikit-learn, XGBoost, LLMs/Ollama, FastAPI, SQLAlchemy, pytest, Docker, Git

Operating environments: Linux, Windows Server

Professional Experience

Database Administration Officer I | Hibret Bank | *24 Apr 2025 – Present*

- Support enterprise database administration and production operations in a banking environment.
- Apply database administration practices covering performance, backup and recovery, security, access controls, and data integrity.

Associate Database Administration Officer | Hibret Bank | *4 Aug 2022 – 23 Apr 2025*

- Supported enterprise database administration in a banking environment.
- Contributed to database operations and production support, including performance, backup/recovery, and database access and integrity controls.

Database Administrator | Ethiopian Ministry of Revenue | *Mar 2020 – Jul 2022*

- Provided database administration support within a government enterprise IT environment.
- Applied database operations practices focused on availability, performance, data integrity, backup/recovery, and secure access.

Database Administrator | Addis Ababa Housing Development Office | *Dec 2015 – Mar 2020*

- Supported database administration activities for a public-sector organization.
- Worked across database operations, data integrity, performance, backup/recovery, and production support.

Selected Data & Ai Projects

FraudShield – Fraud Detection Model | *Python, XGBoost*

Educational fraud-detection prototype; held-out test F1 0.8457 and ROC-AUC 0.9788. Not integrated with a live financial system.
https://github.com/azmeraa/fraudshield-group25

AI Email Task Agent | *Python, Ollama/Llama 3, SQLite, IMAP, SQL*

AI-assisted email task workflow using a local LLM and supporting data/storage components.
https://github.com/azmeraa/AI-Email-Agent

TASK-CRE-63 | *Python, PostgreSQL/PostGIS, SQLAlchemy, Docker, pytest*

Database-backed geospatial project; test suite reported 19 passing tests. Uses synthetic fixtures, not production integration.
https://github.com/azmeraa/TASK-CRE-63

FIFA 21 Data Analysis | *Python, Pandas, visualization*

Exploratory analysis of FIFA 21 data, including data preparation and visualization.
https://github.com/azmeraa/FIFA21-Data-Analysis

Banking Data Analysis Using SQL | *SQL*

SQL-based analysis project using banking-related data.
https://github.com/azmeraa/banking-data-analysis-sql

Interactive Dev Cards | *Web development*

Interactive developer-card project.
https://github.com/azmeraa/interactive-dev-cards

Education

Bachelor of Science (BSc) in Information Technology | Wollo University

2011 – 2015 | GPA: 3.2
